LOW-PROFILE DESIGN PENGUIN II REPLACEMENT

Dometic's FreshJet 5 is the next evolution of low-profile air conditioners as a direct replacement for the Penguin II. The same 10.5" low-profile height and mounting footprint, with upgraded internal components for quieter performance, improved durability and a lower environmental impact. Available in multiple cooling capacities including HE, 13.5K and 15K BTU, cool-only or cool+heat pump models, the FreshJet 5 delivers reliable comfort with a cleaner, tougher design. The FreshJet 5 family fits any rooftop with a 14" x 14" cutout and compatible with most thermostats, including CT and CCC2 control systems. Models available in Mechanical and Electronic versions and can be used with multiplex systems.

UNIVERSAL, LOW-PROFILE DESIGN

At just 10.5" tall, FreshJet 5 offers improved aerodynamics and a sleek look, ideal for taller RVs needing more clearance. Fits any rooftop with a 14" x 14" cutout including direct replacement for Penguin II.

BUILT-IN HARD START

Provides efficient and reliable air conditioner startup, ensuring smooth operation when multiple appliances are running, reducing breaker trips.

QUIETER PERFORMANCE THAN PENGUIN II

Upgraded motor and optimized blower system reduces interior noise by up to 9 dB in non-ducted applications, delivering noticeably quieter comfort compared to previous models.

FLEXIBLE FAMILY OF PRODUCTS

Cool Only or Cool + Heat pump. Mechanical or Electronic models. Ducted or non-ducted, single, multizone and multiplex options. Compatible with most thermostats, including CT and CCC2 control systems.

KEY BENEFITS

- Direct replacement for Penguin II
- Low-profile, at just 10.5"
- Single motor
- Fixed speed compressor
- Hard start built in
- Electronic controls (sold separately)
- 5 models: 4 Mechanical Models: High Efficiency, 13.5K, 15K, 15K Heat Pump
1 Electronic Model: 15K Heat Pump with pre-installed electronic controls
