NRXD 15 | 20 | 30 COMPACT DRAWER REFRIGERATORS

Built on the advanced NRX platform, the NRXD Series offers a powerful, efficient refrigeration solution for smaller and more confined spaces onboard, in 15L, 20L and 30L capacity

DOMETIC

SMALL PLACE COOL SPACE

The Dometic NRXD 15, 20 and 30 brings flexible refrigeration to compact marine spaces. With three capacities and a choice of front finishes, the range gives boat builders and owners practical cold storage without compromising onboard layout.

Each model can be installed as a standalone refrigerator or combined with the NRXD 50 and 60 series. This modular approach creates greater freedom to configure refrigeration around the vessel while maintaining a consistent, integrated look.

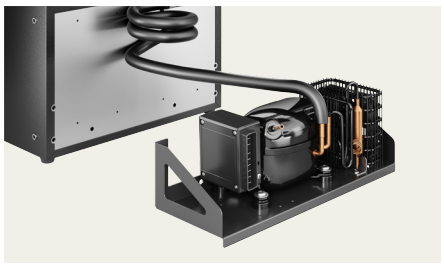

Benefits with NRXD 15 | 20 |30

- Self-locking drawer stays securely open at full extension, providing easy access while the vessel is in motion.
- Elegant front panel and full-width handle combine clean integration with easy access from any angle.
- Energy-efficient Dometic compressor switches between fresh-food and freezer modes to suit changing storage needs.
- Flush-mounted control panel with integrated LED lighting ensures simple operation, even in low-light conditions.
- Modular installation frame supports standard or flush mounting for seamless integration into the surrounding interior.

Refrigeration technology	High-efficiency compressor cooling
Cooling functions	Refrigerator or freezer operation
Temperature Settings	3 refrigerator cooling levels (approx. 7°C (45°F), 4°C (39°F), 2°C (35°F)) plus freezer mode down to -12°C (10°F)
Cooling capacity range	15 L, 20 L and 30 L models
Refrigerant	r1234yf
Power supply	12 / 24 V DC (optional 110-240 V AC)
Control interface	Integrated LED display with push-button controls
Door options	Black plastic White plastic SUS316 Stainless steel
Mounting options	Standard-mount Flush-mount frame options

1. Self-Locking System
Holds the drawer securely at full extension for easier access, even while under way.

2. Removable Compressor
Position the compressor up to 1.5 m (5 ft) away to free valuable installation space.

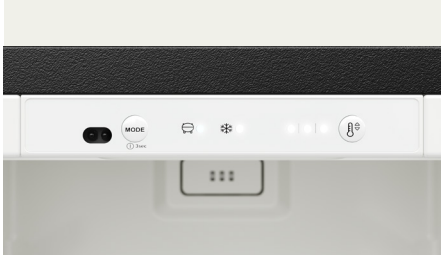

3. Freezing Capability
Switch easily between fresh-food and freezer modes to suit changing storage needs.

4. Flexible Storage Organisation
Configurable dividers organise food and drinks efficiently while helping keep contents secure.

5. DPS-R Integration
Optional DPS-R integration enables operation from an AC mains supply when required.

6. Intuitive Control Panel
Select the cooling mode and temperature quickly using clear, flush-mounted LED controls.
